EXECUTIVE SUMMARY

I am a Lead Unity Game Developer and Systems Architect specializing in building scalable, high-performance, and immersive experiences across iOS, macOS, Android, WebGL, Desktop, and XR platforms. With deep expertise in Unity and C#, I design robust multiplayer systems, optimize complex projects for performance and scalability, and lead development teams from architecture to production. I focus on clean architecture, maintainable code, strong Git workflows, and mentoring developers to deliver production-ready games that scale.

TECHNICAL CORE

- **Engine & Languages:** Unity 2D/3D , C# , HTML5.
 - **Architecture & Patterns:** Object-Oriented Programming (OOP) , Clean Architecture , SOLID principles, Systems Architecture.
 - **Optimization:** Addressables System , Memory Management , Build Optimization.
 - **Specialized Tech:** XR (AR/VR/MR) , Multiplayer & Real-time Systems , Backend/API Integration , Orbbec Astra Integration.
-

PROFESSIONAL EXPERIENCE

Eyesight Electronics (United Kingdom / Remote) Lead Game Developer | September 2023 – August 2026

- Develop software and games for Mac, Windows, and mobile devices, ensuring seamless performance across diverse platforms.
- Guide and mentor a talented development team to foster collaboration and deliver exceptional gaming experiences.
- Plan, track milestones, and manage projects to ensure the timely delivery of high-quality products.
- Stay updated on industry trends and leverage emerging technologies to push creative boundaries and innovate continuously.

Section Soft (Islāmābād, Pakistan) Senior Game Developer | March 2024 – August 2026 (Part Time)

- Work on multiple products across WebGL, Windows, and Android platforms.
- Develop VR applications, Orbbec Astra integrations, and interactive wall games.
- Focus on creating optimized, engaging, and cross-platform gaming experiences.

AptechMedia (Islāmābād, Pakistan) Game Developer | August 2021 – August 2023

- Engineered clean and efficient C# code within Unity to create smooth gameplay mechanics.
 - Ensured seamless performance across PC, Web, and mobile devices through cross-platform optimization.
 - Resolved complex technical challenges to enhance game performance and user enjoyment.
 - Participated in project planning, progress tracking, and Agile development practices.
-

EDUCATION

Bacha Khan University (Charsadda, Pakistan) BS Computer Science | September 2017 – September 2022
